PREFERENCES & PREDICTORS

Premier audience insights that combine unique behavioral data sources with powerful predictive analytics for actionable targeting and messaging.

Acxiom Predictive Audiences

Acxiom Audience PROPENSITIES® are market leading behavioral and attitudinal indicators based on known, actionable information and tied to shopping intent, attitudinal data, media behavior, etc., to accurately predict brand affinity and preferences, in-market interests and timing, and media viewing habits.

Thousands of prebuilt propensity models from both Acxiom and trusted partners are available for immediate use, requiring little configuration. They provide rich insights into a consumer’s likelihood to respond, convert and remain loyal, as well as preferences for certain channels.

Audience Propensities are designed to address the distinct nuances of a wide range of industries. Rooted in multidimensional insights from syndicated data partner relationships, Acxiom’s models are superior to other approaches that rely on a single attribute or attitudinal indicator. With statistical confidence, Audience Propensities help predict answers to the most important marketing questions:

- Who has affinity for my brand?
- Which channels and products are likely to be shopped?
- Who is in the market now?

ACXIOM AUDIENCE PROPENSITIES INCLUDE:

Over 3,500 prebuilt audience predictors

- 300+ Automotive industry propensities including brand affinities, accessories, and packages
- 500+ CPG propensities including consumable food & beverage preferences, pet products & beauty supplies.
- 200+ Insurance propensities including brand preference for auto, property, life and health and channel propensities
- 200+ Investment Services attributes including assets, retirement savings and affinity for investing
- 900+ Retail propensities including purchase behavior, shopping propensities and brand affinities
- 150+ Technology category propensities including mobile wallet interests, consumer electronics brand affinities, wearables attitudes and behavior and media usage
Partner Predictive Audiences
Acxiom Partner Predictive Audiences unlock data driven marketing opportunities by providing uniquely insightful behavioral and attitudinal indicators developed in partnership with select data providers. These solutions provide deep “always on” access to current behavioral and attitudinal data including product-level purchasing, retail spend, content consumption across channels, interests and lifestyles for brands seeking to fine tune their people-based engagements. Omnichannel partner audiences are built leveraging Acxiom’s leading Identity Graph combined with Acxiom’s InfoBase data, offering a powerful predictive data foundation that results in actionable insights to drive marketing engagement strategy and messaging.

SEGMENTATION & ANALYSIS

Market leading multi-dimensional consumer segmentation solutions for consumer analysis, personalization and engagement.

PERSONICX® is a syndicated segmentation and visualization suite available with global reach. While the flagship Consumer Lifestage system is fine-tuned by country for optimal performance, the U.S. version leverages key demographics to group households with similar consumer behaviors into one of 70 segments within 21 life-stage groups. The expansive U.S. suite includes five specialized systems centered on key use cases:

- CONSUMER LIFESTAGE
- DIGITAL BEHAVIOR
- FINANCIAL BEHAVIOR
- INSURANCE BEHAVIOR
- HISPANIC ETHNICITY & ACCULTURATION

Whether used alone or together, all systems allow marketers to organize customers and prospects based on their demographics, socio-economics and essential buying behaviors to support key use cases:

- Customer segmentation for executing effective marketing strategy and tactics
- Robust audience portrait creation for deeper understanding of consumers and their likely in-market behaviors
- Omnichannel audience definition and targeting for coordinated acquisition, upsell & cross-sell, and retention programs across digital and offline platforms
- Creation of more relevant messages, content and customer experiences

Only Personicx is built from the most accurate and complete data available at the actual household and individual level. All systems are linked to globally renowned syndicated survey sources, providing rich insights into thousands of attitudes, interests and behaviors without the expense of conducting your own primary research. The Personicx advantage provides marketers with the greatest differentiation and predictive power for segmenting consumers. Bring in your own customer data for customized segments, and you’ll have unprecedented multidimensional insights for an undeniable competitive advantage in the marketplace.
